

**§ 105-187.77. Tax on severance of energy minerals.**

(a) Purpose. – An excise tax is levied on the privilege of engaging in the severance of energy minerals from the soil or water of this State. The tax is imposed on the producer of the energy mineral. The purpose of the tax is to provide revenue to administer and enforce the provisions of this Article, to administer the State's natural gas and oil reclamation regulatory program, to meet the environmental and resource management needs of this State, and to reclaim land affected by exploration for, drilling for, and production of natural gas and oil. The severance tax is imposed upon all energy minerals severed when sold.

(b) Calculation of Tax. – The amount of the severance tax is calculated as follows:

- (1) Condensates. – The applicable percentage rate of the gross price paid.
- (2) Gas. – The applicable percentage rate of the market value as determined in G.S. 105-187.78.
- (3) Oil. – The applicable percentage rate of the gross price paid.

(c) Oil and Condensates Rate. – The percentage rate for condensates and oil is five percent (5%).

(d) Marginal Gas Rate. – The producer of a proposed or existing gas well may apply to the Commission for a determination that the well qualifies as a marginal gas well. The producer may elect to have the gas taxed at the marginal gas rate or the gas rate. For severance of gas from a marginal gas well the percentage rate is eight-tenths of one percent (0.8%).
