

§ 90A-47.2. Certified operator in charge required; qualifications for certification.

(a) No owner or other person in control of an animal operation having an animal waste management system shall allow the system to be operated by a person who does not hold a valid certificate as an operator in charge of an animal waste management system issued by the Commission. No person shall perform the duties of an operator in charge of an animal waste management system without being certified under the provisions of this Part. Other persons may assist in the operation of an animal waste management system so long as they are directly supervised by an operator in charge who is certified under this Part.

(b) The owner or other person in control of an animal operation may contract with a certified animal waste management system operator in charge to provide for the operation of the animal waste management system at that animal operation. The Commission may adopt rules requiring that any certified animal waste management system operator in charge who contracts with one or more owners or other persons in control of an animal operation file an annual report with the Commission as to the operation of each system at which the services of the operator in charge are provided. (1995 (Reg. Sess., 1996), c. 626, s. 6(b).)
