

Article 3J.

Tax Credits for Growing Businesses.

(See G.S. 105-129.82(a) for repeal of Article.)

§ 105-129.80. (See notes) Legislative findings.

The General Assembly finds that:

- (1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.
- (2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging, and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.
- (3) The economic condition of the State is not static, and recent changes in the State's economic condition have created economic distress that requires a reevaluation of certain existing State programs and the enactment of a new program as provided in this Article that is designed to stimulate new economic activity and to create new jobs within the State.
- (4) The enactment of this Article is necessary to stimulate the economy and create new jobs in North Carolina, and this Article will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.
- (5) The purpose of this Article is to stimulate economic activity and to create new jobs within the State.
- (6) The State is in need of a focused tax credit program that encourages and facilitates economic growth and development within the State.
- (7) The resources of the State are not evenly distributed throughout the State and different communities have different abilities and needs in attracting and maintaining new and expanding business and industry. (2006-252, s. 1.1.)
