

**§ 90A-25. Issuance of certificates.**

(a) The Board shall issue a certificate to an applicant who meets the requirements for certification and pays the required fee. The certificate shall state the grade of certification appropriate for the classification of water treatment facilities the applicant is qualified to operate.

(b) The board shall issue a certificate, without examination, in a comparable grade to any person who holds a certificate in any state, territory or possession of the United States, if in the judgment of the Board of Certification the requirements for operators under which the person's certificate was issued are of a standard not lower than that specified under rules and regulations adopted under this Article.

(c) Certificates in an appropriate grade will be issued to operators who, on July 1, 1969, hold certificates of competency issued under the voluntary certification program now being administered through the Department of Environmental Quality with the cooperation of the North Carolina Water Works Operators Association, the North Carolina Section of the American Water Works Association, and the North Carolina League of Municipalities.

(d) Certificates in an appropriate grade will be issued without examination to any person or persons certified by the governing board in the case of a city, town, county, sanitary district, or other political subdivision, or by the owner in the case of a private utility or industry, to have been in responsible charge of its water treatment facilities on the date the Board of Certification notifies the governing board, or owner, of the classification of its water treatment facility, provided the facility was classified before July 1, 1981, and provided the application for such certification is made within one year of the date of notification. A certificate so issued will be valid for use by the holder only in the water treatment facility in which he was employed at the time of his certification. No certificate shall be issued under this subsection to any operator of any water treatment facility classified by the board on or after July 1, 1981.

(e) Temporary certificates in any grade may be issued without examination to any person employed as a water treatment facility operator when the Board of Certification finds that the supply of certified operators, or persons with training necessary to certification, is inadequate. Temporary certificates shall be valid for only one year. Temporary certificates may be issued with such special conditions or requirements relating to the place of employment of the person holding the certificate, his supervision on a consulting or advisory basis, or other matters as the Board of Certification may deem necessary to protect the public health. No temporary certificate may be renewed more than one time either by any operator at the same grade level or by any operator for employment at the same water treatment facility.
