A BILL TO BE ENTITLED

1 AN ACT TO REQUIRE THAT ALL ENTRANCES AND EXITS IN DOMICILIARY  
2 CARE FACILITIES BE EQUIPPED WITH ALARMS AND THAT THE  
3 DEPARTMENT OF HUMAN RESOURCES DEVELOP PROPOSED RULES AND  
4 REPORT TO THE NORTH CAROLINA STUDY COMMISSION ON AGING.  
5

6 The General Assembly of North Carolina enacts:

7 Section 1. All domiciliary care facilities except group homes for  
8 developmentally disabled adults licensed pursuant to Article 1 of Chapter 131D of the  
9 General Statutes shall have continually activated operational alarms at all entrances and  
10 exits effective January 1, 1996. The alarms shall have the necessary volume to alert all  
11 occupants whenever these doorways are used. All alarms shall be activated at all times  
12 except for those on doorways designated by the Department of Human Resources as the  
13 main entrances for visitors' use during specified daytime hours and in specific cases  
14 approved by the Department. No alarms, including the ones on main entrances, shall be  
15 deactivated during the evening hours of 9:00 p.m. through 6:00 a.m. unless a staff person  
16 is at the door to monitor the entrance and exit.

17 Sec. 2. The Department of Human Resources shall develop proposed rules  
18 concerning the implementation of this act and shall also review the use of new  
19 technology, such as the use of bracelets with signaling devices, in developing methods of

1 identifying, locating, and securing those residents who are known to wander. The  
2 Department shall report its proposed rules and findings to the North Carolina Study  
3 Commission on Aging, established pursuant to Article 21 of Chapter 120 of the General  
4 Statutes prior to the adoption of the rules to implement this act. The report may include  
5 recommended penalties that should be imposed on facilities that fail to maintain alarms  
6 and recommended legislation.

7           Sec. 3. This act is effective upon ratification.
