A BILL TO BE ENTITLED

AN ACT TO PROVIDE A STUDY OF COMPENSATION TO THE PERSONS STERILIZED THROUGH THE STATE'S EUGENIC STERILIZATION PROGRAM.

Whereas, during the early part of the 20th century, social reformers advocated eugenic sterilization as a solution to problems such as mental retardation and mental illness; and

Whereas, in 1907, Indiana was the first state to pass a eugenic sterilization program, and eventually more than 30 states passed these laws, with North Carolina following in 1929; and

Whereas, from 1933 to 1974, North Carolina's Eugenics Board reviewed petitions for sterilizations, and sterilizations were ordered in more than 90% of the cases before the Board; and

Whereas, researchers estimate that more than 7,600 people were sterilized in North Carolina between 1929 and 1974, ranking North Carolina third among the states operating eugenic sterilization programs; and

Whereas, while most states sharply curtailed their sterilization programs after World War II, nearly four-fifths of sterilizations in North Carolina were performed after 1945, and by the late 1960s, more than 60% of those persons sterilized in the State were black, and 99% were female; and

Whereas, the governors of Virginia, Oregon, South Carolina, and North Carolina have issued apologies for these forced sterilizations, and Governor Michael F. Easley established a committee to investigate the eugenics program and consider compensation or counseling services for these persons; and

Whereas, the General Assembly finds that persons sterilized as a result of the State's eugenics sterilization program should be considered for compensation; Now, therefore,

The General Assembly of North Carolina enacts:
