"...

SECTION 2.3. G.S. 105-164.3 is amended by adding a new subdivision to read:
"(16f) Large manufacturing and distribution facility. – A facility that satisfies both of the following conditions:
  a. The facility is used primarily for manufacturing or assembling products and distributing finished products.
  b. The Secretary of Commerce has certified that an investment of private funds of at least eighty million dollars ($80,000,000) has been or will be made in real and tangible personal property for the facility within five years after the date on which the first property investment is made and that the facility will achieve an employment level of at least 550 within five years after the date the facility is placed into service and maintain that minimum level of employment throughout its operation."

SECTION 2.4. Sales of mill machinery to manufacturers and certain industrial processors have historically enjoyed preferential tax treatment, whether in the form of a reduced wholesale tax, a preferential rate of sales and use tax, or a one-percent (1%) privilege tax with an eighty-dollar ($80.00) cap per article. Despite the nature of the tax, the operational language has remained virtually unchanged for over 60 years and lacks clear guidance with regard to its application. Specifically, Article 5F of Chapter 105 of the General Statutes, and its predecessors, did not define "manufacturing industry or plant" or "mill machinery." This lack of guidance has resulted in a substantial body of administrative interpretation being developed over the years by the Department of Revenue. These interpretations are not included in the statutes and may not necessarily comport with the traditional definition of manufacturing, but they may be consistent with the General Assembly's intent to provide preferential tax treatment to certain industrial equipment.

This act repeals the one-percent (1%) privilege tax on mill machinery and mill machinery parts and accessories and substitutes a sales and use tax exemption for same said
items. However, the General Assembly recognizes that, once this transition has occurred, efforts need to be made to provide more guidance and specificity to taxpayers and the Department of Revenue with respect to the treatment of manufacturing and industrial processing equipment. Therefore, the Revenue Laws Study Committee is directed to study ways in which to clarify the scope of the sales and use tax exemption for mill machinery, as enacted by this act, by modernizing and further defining the statutory language and by incorporating existing administrative interpretations of the Department of Revenue, to the extent the General Assembly desires to maintain those interpretations.

The Committee may report its findings, together with any recommended legislation, to the 2018 Regular Session of the 2017 General Assembly upon its convening. The study may include an examination of the following:

(1) The criteria that had to be met under prior law to qualify for the preferential rate under Article 5F of Chapter 105 of the General Statutes and whether that criteria should be incorporated into or otherwise clarified in the corresponding sales and use tax exemption, as enacted by this act, including the following:
   a. What constitutes an eligible manufacturer or industrial processor.
   b. The extent to which a business’s activities must consist of manufacturing or processing items for sale in order for the sales and use tax exemption, as enacted by this act, to apply.
   c. The types of activities that qualify as manufacturing or industrial processing.
   d. The types of machinery, parts, accessories, and other supplies that are eligible for the exemption and the degree to which they must be used in that process to qualify.

(2) A review of the Department’s administrative interpretations of the mill machinery statute, in all its forms, and whether and how to incorporate those interpretations into the statutes.

(3) Terminology used by surrounding states in their statutory provisions that provide a sales and use tax exemption for manufacturing equipment.

(4) Any other issues the Committee deems relevant.

SECTION 2.5. Sections 2.1, 2.2, and 2.3 of this Part become effective July 1, 2017, and apply to sales made on or after that date. The remainder of this Part is effective when it becomes law.

PART III. FRANCHISE TAX SIMPLIFICATION

SECTION 3.1. G.S. 105-120.2 reads as rewritten:

“§ 105-120.2. Franchise or privilege tax on holding companies.

(a) Every corporation, domestic and foreign, incorporated or, by an act, domesticated under the laws of this State or doing business in this State that, at the close of its taxable year, is a holding company as defined in subsection (c) of this section, shall, pursuant to the provisions of G.S. 105-122, do all of the following:

(1) File a return.

(2) Determine the total amount of its net worth.

(3) Apportion its net worth to this State.

(b) Tax Rate. – Every corporation taxed under this section shall annually pay to the Secretary of Revenue, at the time the return is due, the greater of the following:

(1) A franchise or privilege tax at the rate of one dollar and fifty cents ($1.50) per one thousand dollars ($1,000) of the amount determined under subsection (a) of this section, but in no case shall the tax be more than one
hundred fifty thousand dollars ($150,000) nor less than two hundred dollars ($200.00).

(2) If the tax calculated under this subdivision exceeds the tax calculated under subdivision (1) of this subsection, then the tax is levied at the rate of one dollar and fifty cents ($1.50) per one thousand dollars ($1,000) on the greater of the following:

a. Fifty-five percent (55%) of the appraised value as determined for ad valorem taxation of all the real and tangible personal property in this State of each such corporation plus the total appraised value of intangible property returned for taxation of intangible personal property as computed under G.S. 105-122(d).

b. The total actual investment in tangible property in this State of such corporation as computed under G.S. 105-122(d).

c. For purposes of this section, a "holding company" is a corporation that satisfies at least one of the following conditions:

(1) It has no assets other than ownership interests in corporations in which it owns, directly or indirectly, more than fifty percent (50%) of the outstanding voting stock or voting capital interests.

(2) It receives during its taxable year more than eighty percent (80%) of its gross income from corporations in which it owns directly or indirectly more than fifty percent (50%) of the outstanding voting stock or voting capital interests.

d. Repealed by Session Laws 1985, c. 656, s. 39.

e. Counties, cities and towns shall not levy a franchise tax on corporations taxed under this section. The tax imposed under the provisions of G.S. 105-122 shall not apply to businesses taxed under the provisions of this section.

SECTION 3.2. G.S. 105-122 reads as rewritten:

"§ 105-122. Franchise or privilege tax on domestic and foreign corporations.

(a) Tax Imposed. — An annual franchise or privilege tax is imposed on a corporation doing business in this State. The tax is determined on the basis of the books and records of the corporation as of the close of its income year. A corporation subject to the tax must file a return under affirmation with the Secretary at the place and in the manner prescribed by the Secretary. The return must be signed by the president, vice-president, treasurer, or chief financial officer of the corporation. The return is due on or before the fifteenth day of the fourth month following the end of the corporation's income year.

(b) Determination of Net Worth. — A corporation taxed under this section shall determine the total amount of its net worth. The net worth of a corporation is its total assets without regard to the deduction for accumulated depreciation, depletion, or amortization less its total liabilities, computed in accordance with generally accepted accounting principles as of the end of the corporation's taxable year. If the corporation does not maintain its books and records in accordance with generally accepted accounting principles, then its net worth is computed in accordance with the accounting method used by the entity for federal tax purposes so long as the method fairly reflects the corporation's net worth for purposes of the tax levied by this section. A corporation's net worth is subject to the following adjustments:

(1) A deduction for accumulated depreciation, depletion, and amortization as determined in accordance with the method used for federal tax purposes.

(1a) Repealed by Session Laws 2015-241, s. 32.15(d), effective for taxable years beginning on or after January 1, 2017, and applicable to the calculation of franchise tax reported on the 2016 and later corporate income tax return.
(2) An addition for indebtedness the corporation owes to a parent, a subsidiary,
an affiliate, or a noncorporate entity in which the corporation or an affiliated
group of corporations owns directly or indirectly more than fifty percent
(50%) of the capital interests of the noncorporate entity. The amount added
back to the corporation’s net worth may be further adjusted if part of the
capital of the creditor is capital borrowed from a source other than a parent,
a subsidiary, or an affiliate. The debtor corporation may deduct a
proportionate part of the indebtedness based on the ratio of the borrowed
capital of the creditor to the total assets of the creditor. For purposes of this
subdivision, borrowed capital does not include indebtedness incurred by a
bank arising out of the receipt of a deposit and evidenced by a certificate of
deposit, a passbook, a cashier’s check, a certified check, or other similar
document.

(2a) If the creditor corporation is taxable under this Article, the creditor
corporation may deduct the amount of indebtedness owed to it by a parent,
subsidiary, or affiliated corporation to the extent that such indebtedness has
been added by the debtor corporation.

(3) A corporation may deduct the cost of treasury stock.

(4) through (8) Repealed by Session Laws 2015-241, s. 32.15(c), effective for
taxable years beginning on or after January 1, 2017, and applicable to the
calculation of franchise tax reported on the 2016 and later corporate income
tax return.

(c1) Apportionment. – A corporation that is doing business in this State and in one or
more other states must apportion its net worth to this State. A corporation must use the
apportionment method set out in subdivision (1) of this subsection unless the Department has
authorized it to use a different method under subdivision (2) of this subsection. The portion of a
corporation’s net worth determined by applying the appropriate apportionment method is
considered the amount of net worth the corporation uses in its business in this State:

(d) Tax Base and Tax Rate. – After determining the proportion of its net worth as set
out in subsection (c1) of this section, which amount shall not be less than fifty five percent
(55%) of the appraised value as determined for ad valorem taxation of all the real and tangible
personal property in this State of each corporation nor less than its total actual investment in
tangible property in this State, every corporation taxed under this section shall annually
pay to the Secretary of Revenue, at the time the return is due, a franchise or privilege tax at the
rate of one dollar and fifty cents ($1.50) per one thousand dollars ($1,000) of the total amount
of net worth as provided in this section, worth, or the total amount of net worth apportioned to
this State if the corporation is doing business in this State and in one or more other states. The
tax imposed in this section shall not be less than two hundred dollars ($200.00) and is for the
privilege of carrying on, doing business, and/or the continuance of articles of incorporation or
domestication of each corporation in this State. Appraised value of tangible property including
real estate is the ad valorem valuation for the calendar year next preceding the due date of the
franchise tax return. The term “total actual investment in tangible property” as used in this
section means the total original purchase price or consideration to the reporting taxpayer of its
tangible properties, including real estate, in this State plus additions and improvements thereto
less reserve for depreciation as permitted for income tax purposes.

(d1) Repealed by Session Laws 2015-241, s. 32.15(c), effective for taxable years
beginning on or after January 1, 2017, and applicable to the calculation of franchise tax
reported on the 2016 and later corporate income tax return.
(e) Short Period. – Any corporation which changes its income year, and files a "short period" income tax return pursuant to G.S. 105-130.15 shall file a franchise tax return in accordance with the provisions of this section in the manner and as of the date specified in subsection (a) of this section. Such corporation shall be entitled to deduct from the total franchise tax computed (on an annual basis) on such return the amount of franchise tax previously paid which is applicable to the period subsequent to the beginning of the new income year.

(f) Return and Tax. – The return and tax required by this section are in addition to all other reports required or taxes levied and assessed in this State.

(g) Local Prohibition. – Counties, cities and towns shall not levy a franchise tax on corporations taxed under this section.

(h) Repealed by Session Laws 1981 (Regular Session, 1982), c. 1211, s. 5."

SECTION 3.3. This Part is effective for taxable years beginning on or after January 1, 2019, and applicable to the calculation of franchise tax reported on the 2018 and later corporate income tax returns.

PART IV. EFFECTIVE DATE

SECTION 4. Except as otherwise provided, this act is effective when it becomes law.
